

```
<DropDownList @ref="dropdownList" @bind-Value="orderType" Disabled="disable" />
```

```
<button class="t-button" @onclick="async () => await DropdownFocus()">Focus</button>
```

@code

```
{  
    bool disable;  
    OrderType? orderType;  
    DropDownList< OrderType?> dropdownList;  
    WindowStatus status;  
  
    async Task DropdownFocus()  
    {  
        await dropdownList.FocusAsync();  
    }  
}
```
